Is there something this cat particularly likes (in general)?

POLICY STATEMENT- ANIMALS RECEIVED FROM OWNERS PLEASE READ CAREFULLY **Please understand that you completely give up the ownership and all rights to this animal when you surrender to an Abyssinian Breed Rescue.** Once the animal is surrendered, we will decide if we can place the animal up for adoption. Ideally we would like to place all animals in new homes however we cannot guarantee that a new home will be found for this animal. Animals surrendered will be examined by a licensed veterinarian for their health and their temperament will be tested by one of our breeders soon after they are received to determine if they are suitable for adoption. This is a very stressful time for the kitty and we ask that once you surrender your kitty that you understand that you need to completely walk away from this and not keep calling or showing up to see the kitty. They will be confused and if you continue to come back into their life it is not good for them emotionally. It may make you feel better, but it will not help your kitty move forward. The animal is suffering from stress due to being placed in a rescue environment. For animals available for adoption there is a 30 day holding period of quarantine before they can be around any other kitties in the rescue, or even kennelled in the same area the other kitties are running around in. After the 30 days there will be no set holding period, it may take an hour, a day, a week or years for the Abyssinian rescue to be adopted. Once an animal is placed for adoption its condition is continuously evaluated. An animal will be euthanized from our adoption area **ONLY** if there is a change in its physical condition and only on the recommendation of the veterinarian. Otherwise we are a **NO KILL** Rescue.

Cat to be Surrendered NAME: _____
